Further access into the maintenance business continues to bolster Procurri’s ITAD penetration potential as more companies move to the cloud

**APAC**
- Outperformed key objective for 2018 of expanding presence in India – *Obtained largest-ever hardware maintenance contract from an international telecommunications services company*

**EMEA**
- Strengthening relationships with channel partners to secure recurring business – *23-month deal worth approximately £1 million for National Building Society and new maintenance contract with a British pharmaceutical multinational first won in 2016*

**The Americas**
- Strengthening relationships with channel partners to secure recurring business – *Clinched major contracts with revenue for lifecycle services almost doubling to S$43.7 million for FY2018 (FY2017: S$21.9 million)*
Procurri remains in position as a trusted global intermediary in the enterprise equipment market

**RECENT DEVELOPMENTS**

**APAC**
- Building stronger relationships with OEMs and value-added resellers – Secured significant contract to decommission a number of data centres

**EMEA**
- Working closely with OEMs to prevent any major disruption to business and to secure more hardware deals – Undertook a joint marketing campaign with Hewlett Packard Enterprises ("HPE"), revenue from HPE rose to £3.3 million FY2018 (£2.5 million FY2017)

**The Americas**
- Cross-selling and upselling hardware – Rockland won a global integrator account to supply refurbished Vblock equipment which was subsequently expanded to include the provision of lifecycle services
Amidst a proliferation of mobile devices, e-commerce, fintech and Internet of Things, cloud adoption has grown rapidly. Cloud infrastructure investment on the whole continues to rise and also an increasing importance of IT service management and ITAD.

EMERGING TRENDS

Increasing acceptance of the secondary IT market with more OEMs endorsing the sale of certified refurbished or excess equipment

Emphasis on use of certified genuine replacement parts to prevent equipment failure and data centre downtime

Strong shift towards open server architecture with a preference for vendor-agnostic service providers

Increased importance of return on investment and impact of depreciation from IT infrastructure, driving the shift from capex to opex models

Cloud migration fuelling demand for third-party maintenance services for IT hardware during the transition to the cloud and driving the need for data sanitisation and hardware disposal services as legacy IT assets are rendered obsolete by cloud computing.

Industry consolidation caused by change in traditional intermediary roles of OEMs, value-added resellers and system integrators

Shift in industry dynamics where only players with operation size and geographical reach can compete effectively to capture a meaningful market share.
STRATEGY COMPLETE

EXPANDING MARKETS AND ENLARGING CUSTOMER BASE
Tap on newly-acquired capabilities to strengthen Procurri’s brand name, suite of services and enlarge customer base, while exploring potential earnings-accrative acquisition opportunities.

CEMENTING THE GROUP’S CREDIBILITY
Forge strategic partnerships with OEMs and capitalise on authorized partner statuses to expand the Group’s product lines and unlock cross-selling opportunities.

GROWING HIGHER-MARGIN LIFECYCLE SERVICES SEGMENT
Leverage the “as-a-service” trend and ramp up Lifecycle Services business to provide greater income predictability and sustainable earnings.

IMPROVING INTERNAL EFFICIENCIES & HARNESSING ECONOMIES OF SCALE
Continue rigorous cost control efforts and harness economies of scale from the improved centralized purchasing processes.
FUTURE PLANS

• **Increase focus on APAC region**, leveraging on the Singapore headquarters, and expertise and network of new major shareholder, Novo Tellus.

• New sales office in Germany cushions the Group from potential disruptions due to Brexit. It also provides **additional coverage in Europe for the Group to deepen its customer base and expand its reach**.

• Sales office in Atlanta was expanded and a new engineering facility was established to handle same-day inbound and outbound hardware delivery, providing added support in the Americas. Coupled with full control of Rockland and further ongoing integration, the **prospects are bright for the Group’s global storage maintenance portfolio**.

• **Increase emphasis on prospects of the ITAD division** as more companies migrate to the cloud.

• The Group continues to look out for **viable partnerships and acquisition opportunities**.
