Headquartered in Singapore, Procurri is a leading global independent provider of Lifecycle Services and Data centre Equipment that was listed on SGX-ST Mainboard on 20 July 2016.

**Vision**
To unlock opportunities in the IT industry by changing the way the world buys technology through a shared platform.

**Mission**
To be the global aggregator of IT services and enterprise hardware to our channels, offering a converged network that combines technology, finance and logistics domains.

First player in a highly fragmented market to be publicly listed.
Coverage in more than 100 countries.
Over 400 employees.
INDUSTRY OVERVIEW

**Situation**

Channel partners source a portion of its data centre equipment and services directly from OEMs and distribution partners.

**Pain Point**

The pain point for channel partners is finding previous generation equipment with customized solutions and services, which are not readily offered by OEMs and distribution partners.

**More Demand Drivers**

- High growth in cloud services fuels demand for equipment and services during the transition period
- Upgrading works in data centres propel demand for asset disposal, maintenance works and newer equipment

**Solution**

As an independent provider of IT equipment and solutions, Procurri capitalises on the growing demand by:

- Acting as a **market maker** for **middle lifecycle** equipment
- Extending **multi-brand** offerings for **previous generation** equipment and services
- Offering **customised** solutions and services for unique channel demands
- Offering **integrated** IT solutions and services at a cost-friendly package
- Pivoting as a **trusted partner** in an otherwise unregulated market
- Leveraging on a **global** distribution and services network

• High growth in cloud services fuels demand for equipment and services during the transition period
• Upgrading works in data centres propel demand for asset disposal, maintenance works and newer equipment

**LIFECYCLE SERVICES**
- Independent Maintenance Services
- IT Asset Disposition (“ITAD”) & Data Centre Services

**IT DISTRIBUTION**
- Hardware Resale

*Forecast according to Frost & Sullivan*
EMERGING TRENDS

**Increasing acceptance of the secondary IT market** with more OEMs endorsing the sale of certified refurbished or excess equipment

**Emphasis on use of certified genuine replacement** parts to prevent equipment failure and data centre downtime

Strong shift towards open server architecture with a preference for **vendor-agnostic service providers**

Increased importance of return on investment and impact of depreciation from IT infrastructure, driving the shift from **capex to opex models**

**Cloud migration fuelling demand for third-party maintenance services** for IT hardware during the transition to the cloud and driving the need for data sanitisation and hardware disposal services as legacy IT assets are rendered obsolete by cloud computing.

**Industry consolidation** caused by change in traditional intermediary roles of OEMs, value-added resellers and system integrators

**Shift in industry dynamics** where only players with operation size and geographical reach can compete effectively to capture a meaningful market share

FUTURE PLANS

• **Increase focus on APAC region**, leveraging on the Singapore headquarters, and expertise and network of new major shareholder, Novo Tellus.

• New sales office in Germany cushions the Group from potential disruptions due to Brexit. It also provides **additional coverage in Europe for the Group to deepen its customer base and expand its reach.**

• Sales office in Atlanta was expanded and a new engineering facility was established to handle same-day inbound and outbound hardware delivery, providing added support in the Americas. Coupled with full control of Rockland and further ongoing integration, the **prospects are bright for the Group’s global storage maintenance portfolio.**

• **Increase emphasis on prospects of the ITAD division** as more companies migrate to the cloud.

• The Group continues to look out for **viable partnerships and acquisition opportunities.**
